

SN-1 – Anodised Aluminium Stair Nosing

PRODUCT DESCRIPTION:

The SN-1 Stair Nosing is manufactured from reinforced anodised aluminium extrusion with a square faced profile. This durable and attractive stair nosing can have a 50mm either carborundum or polymeric insert, has a ramped back and is ideal for installation on both internal and external steps and stairways.

DIMENSIONS:

65mm top face x 30mm front with 50mm channel for inserts. Comes in 4.2 metre lengths or can be cut to size.

INSERT COLOURS:

Polymeric insert colours: Grey, Black or Yellow

Carborundum insert colours: Black, Yellow or can be custom colour

MATERIALS:

R10 Polymeric Inserts: Made from high quality, tough and durable polymer with self-adhesive backing.

P5 Carborundum inserts: Long life, heavy duty, aluminium oxide strip designed for extra grip underfoot and is particularly suitable for external wet areas.

INSTALLATION:

The SN-1 Stair nosing is supplied pre-drilled, counter sunk and cut to length. Application is suitable for concrete, ceramic tiles, timber, carpet and most other surfaces.

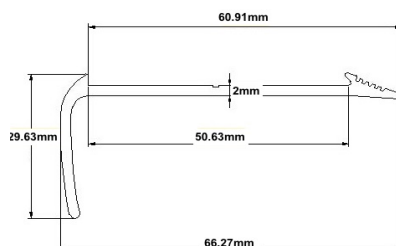

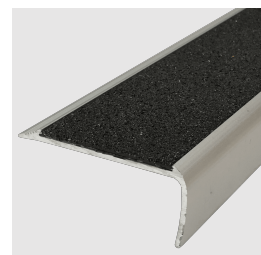

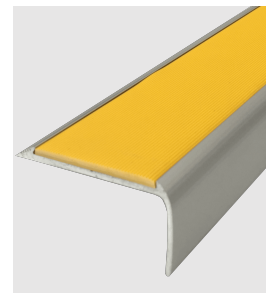

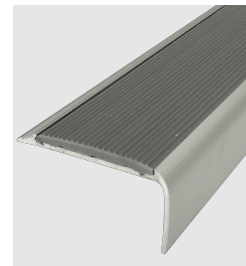

WARRANTY

STEPSOLVE Australia provides a 5 year manufacturer's warranty under normal foot traffic conditions.

COMPLIANCE

Complies with the luminance contrast requirements of the National Construction Code 3.2 and the AS/NZ 1428:4.2002 Design for access and mobility.

The carborundum insert exceeds the requirements of the Australian/New Zealand Standards for anti-slip AS4586:2004 Slip resistance classification of new pedestrian surface materials and the National Construction Code.
